ABOUT US

Established in the year 2004 under the valuable leadership of **Mr. BALKRISHNA POOJARY** we have come a long way touching new horizons and striving hard for excellence every day in every sphere.

We have gained excellent foothold in the market due to our optimum quality hot runner products like **Hotrunner Nozzle, Hot Runner Manifolds, Hot Runner Temperature Controller, Multi Tip Nozzle, Hot Runner Coil Heater, Hot Runner Mould & Hot Runner System** etc. and have become an excellent tool in satisfying our customers.

If customer needs a customized shape then we do the tooling ourselves thus we offer a great delivery along with no additional tooling costs and we provide great services in all enquiries.

INFRASTRUCTURE

Our state-of-the-art infrastructure is backed with technologically advanced tools and machineries that assist in the production of flawless hot runner products. Additionally, well-equipped manufacturing unit, quality control lab, R & D Unit and warehouse are also considered as invincible part of our robust infrastructural base.

QUALITY ASSURANCE

As our prime motto is to provide quality products to our clients, various stringent quality tests are carried under the supervision of our quality control executives. Moreover, the quality tests are carried at various levels of production starting from the initial stage of deployment of raw materials to the final stage of launch of our products in the market.

WAREHOUSE

We have a spacious warehouse facility that is loaded with all essential facilities required for the safe storage of the hot runner equipments. The internal segmentation of the warehouse as per the category of the product also assists in the timely delivery of all our products.

CUSTOMER FOCUS

Customer satisfaction is at the heart of everything we do. Our experienced team works closely with clients to understand their requirements and deliver tailored solutions that ensure long-term reliability and performance.

EURO TECH HOTRUNNER SYSTEM

PRECISION. PERFORMANCE. PERFECTION.

HOT RUNNER MANIFOLD

Engineered for consistent performance and maximum productivity. Our Hot Runner Manifolds ensure uniform melt flow, reduced cycle time, and superior part quality.

PRECISION ENGINEERED
Designed for accurate melt flow and balance.

RELIABLE PERFORMANCE
Ensures consistent output and minimal downtime.

ADVANCED TECHNOLOGY
Built with high-grade materials and innovative design.

MAXIMUM PRODUCTIVITY
Shorter cycle time and superior part quality.

EURO TECH HOTRUNNER SYSTEM

HOT RUNNER MANIFOLD

Our Hot Runner Manifolds are custom-designed to provide efficient melt distribution and thermal control for a wide range of injection molding applications.

OUR PRODUCT RANGE

X-TYPE MANIFOLD
Balanced flow design for uniform filling and high efficiency.

H-TYPE MANIFOLD
Efficient melt distribution for complex and multi-cavity molds.

COMPACT MANIFOLD
Compact design for space-saving and optimal thermal performance.

MULTI-CAVITY MANIFOLD
High cavity configurations for maximum productivity and consistent quality.

UNIFORM HEATING
Consistent temperature control across all channels.

CUSTOM DESIGNED
Tailor-made solutions to meet unique application needs.

HIGH COMPATIBILITY
Suitable for various molding machines and resins.

DURABLE & RELIABLE
Long-lasting performance with precision manufacturing.

Hot Runner Nozzle

PRECISION. PERFORMANCE. PERFECTION.

HIGH PRECISION
Consistent accuracy
for perfect results

RELIABLE PERFORMANCE
Built for continuous
operational efficiency

ADVANCED TECHNOLOGY
Engineered with cutting-edge
hot runner solutions

IMPROVED PRODUCTIVITY
Shorter cycle time,
higher output

EURO TECH HOTRUNNER SYSTEM

Euro Tech Hotrunner System provides advanced hot runner solutions designed for high precision, reliability, and maximum productivity. Our systems ensure consistent performance and superior quality in every application.

OUR PRODUCT RANGE

Hot Runner Double Heater Nozzle

Hot Runner Hot Tip Nozzle

Hot Runner Two Drop Nozzle

Hot Runner Vertical Mould Nozzle

Stainless Steel Extra
Length Nozzle

CUSTOM SOLUTIONS
Tailor-made hot runner
solutions to meet your
unique requirements.

EURO TECH HOTRUNNER SYSTEM

PRECISION. PERFORMANCE. PERFECTION.

ADVANCED HOT RUNNER SOLUTIONS

Euro Tech Hotrunner System delivers high-performance, reliable, and efficient solutions for modern injection molding. Engineered for precision and built for consistency, our systems ensure maximum productivity and superior part quality.

HIGH PRECISION

Engineered for accurate melt distribution and consistent output.

RELIABLE PERFORMANCE

Built for continuous operation with minimal downtime.

ADVANCED TECHNOLOGY

Innovative designs for superior thermal control and efficiency.

MAXIMUM PRODUCTIVITY

Shorter cycle time, less waste, and optimal performance.

OUR HOT RUNNER SYSTEMS

VERTICAL MANIFOLD SYSTEM

Compact and efficient design for balanced melt flow and easy integration.

4-CAVITY MANIFOLD SYSTEM

Ideal for multi-cavity molds with uniform heating and precise control.

MULTI-NOZZLE MANIFOLD

Optimized for high-cavity molds to ensure consistent output and productivity.

HOT RUNNER VALVE GATE

Precision valve gate technology for accurate gating and minimal waste.

CUSTOMIZED SOLUTIONS

Tailor-made Hot Runner Systems to meet unique molding requirements and applications.

WHY CHOOSE EURO TECH HOTRUNNER SYSTEM?

CONSISTENT HEAT

Uniform temperature control for superior molding quality.

ENERGY EFFICIENT

Advanced technology reduces energy consumption.

LONG LASTING DURABILITY

High-quality materials ensure extended service life.

EASY INTEGRATION

Designed for seamless installation and compatibility.

SUPERIOR QUALITY

Engineered to deliver reliable performance in every cycle.

HOT RUNNER VALVE GATE

Our Hot Runner Valve Gate Systems provide precise gating control, reduce material waste, and ensure consistent part quality. Ideal for applications requiring high precision and efficiency.

- ✓ Precise gating control
- ✓ Reduced material waste
- ✓ Improved part quality
- ✓ Faster cycle time
- ✓ Reliable and durable performance

EURO TECH HOTRUNNER SYSTEM

PRECISION. PERFORMANCE. PERFECTION.

HIGH PRECISION

Engineered for accurate and consistent performance.

RELIABLE & DURABLE

Built with premium materials for long service life.

ADVANCED TECHNOLOGY

Designed for efficient heating and uniform flow.

MAXIMUM EFFICIENCY

Improves productivity and reduces cycle time.

HOT RUNNER SPRUE

High-quality Hot Runner Sprues designed for smooth melt flow and minimal pressure drop. Ensures consistent performance and balanced filling.

Smooth melt flow

Low pressure drop

Consistent & reliable performance

BRASS HOT RUNNER TIP

Precision-machined brass tips offer excellent thermal conductivity and wear resistance for efficient and stable operation.

Excellent thermal conductivity

Wear & corrosion resistant

Precision machined for accuracy

HOT RUNNER MULTICAVITY MOULD

Multi-cavity hot runner moulds designed for high-output production with uniform melt distribution and consistent part quality.

High productivity

Uniform melt distribution

Consistent part quality

HOT RUNNER COIL HEATER

High-performance coil heaters provide quick and uniform heating for hot runner systems with excellent insulation and durability.

Fast & uniform heating

High insulation & safety

Long lasting performance

BUILT FOR PERFORMANCE. DESIGNED FOR EXCELLENCE.

Euro Tech Hotrunner System components are engineered to deliver superior performance, energy efficiency, and long-term reliability for all types of plastic injection molding applications.

EURO TECH HOTRUNNER SYSTEM

PRECISION. PERFORMANCE. PERFECTION.

ADVANCED SOLUTIONS FOR MODERN MOULDING

Euro Tech Hotrunner System delivers innovative and reliable solutions that ensure precision, reduce cycle time and maximize productivity. Engineered for consistency and built for long life, our products are designed to meet the demands of modern injection molding.

HIGH PRECISION

Engineered for accurate performance and consistent results.

RELIABLE & DURABLE

Built with premium materials for long life, stability and maximum reliability.

ADVANCED TECHNOLOGY

Innovative solutions for efficient operation and better productivity.

MAXIMUM PRODUCTIVITY

Reduces cycle time, minimizes downtime and improves overall efficiency.

01 HOT RUNNER CONNECTOR

High quality connectors for secure, safe and stable electrical connections.

Secure Connection
High Durability
Easy Installation

02 14 DROP HOT RUNNER VALVE

Precision engineered 14 drop hot runner valve system for uniform melt flow and balanced distribution.

Uniform Flow
Precision Design
Long Life Performance

03 HOT RUNNER MOULD

High performance hot runner moulds for consistent quality and maximum output.

High Efficiency
Consistent Quality
Robust Construction

04 HOT RUNNER TEMPERATURE CONTROLLER

Advanced temperature controllers for precise heating control and maximum system safety.

Precise Temperature Control
Multi Zone Operation
Safe & Reliable

OTHER HOT RUNNER SYSTEM PRODUCTS

HOT RUNNER MANIFOLD

Precision Engineering. Advanced Technology.
Superior Hot Runner Solutions.

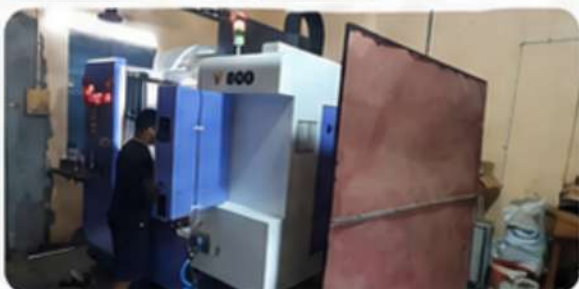

01

RAW MATERIAL INSPECTION

High grade raw materials are carefully inspected for quality, dimension and composition to ensure the best performance and durability.

02

PRECISION MACHINING

Using advanced CNC machines, all components are machined with extreme precision to achieve exact tolerances and smooth finishes.

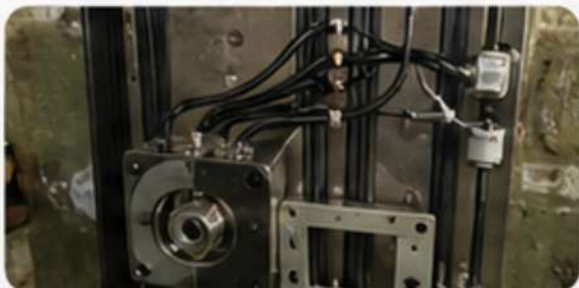

03

COMPONENT ASSEMBLY

Precision machined parts are assembled by skilled technicians in a controlled environment to ensure perfect fit, alignment and reliability.

04

TESTING & QUALITY CHECK

Each hot runner system undergoes rigorous testing for leakage, insulation resistance, temperature accuracy and overall performance.

05

PACKING & DISPATCH

After final inspection, products are carefully packed to ensure safe transport and on-time delivery to our valued customers.
